

STONY PLAIN SUN.

VOLUME NINE.

STONY PLAIN. ALBERTA. THURSDAY. MAR. 7. 1929

Whole Number 448

The Lutheran Church and Church Union.

The Lutheran Church teaches that there is one, invisible, holy Christian Church. Whoever believes in Christ as his Saviour belongs to this invisible "communion of the saints." Such believers are found in every Church which still teaches the fundamental truths of the Christian religion. The VISIBLE Church is much divided, unfortunately. Even the Lutheran Church itself is divided into many synods. Again unfortunately. Many people today would have all churches to unite. The United Church of Canada is an evidence of this tendency. The Lutheran Church (Missouri Synod) favors the union of all Lutheran bodies. It favors a union of all Christian denominations. It insists, however, that union in doctrine on the basis of God's Word must precede organizational union. Those who teach doctrines which are not in harmony with "the faith which was once delivered unto the saints" are not permitted to preach on Lutheran (Missouri Synod) pulpits. This is as God would have it, Romans 16, 17: "Now I beseech you, brethren, mark them which cause divisions and offenses contrary to the doctrine which ye have learned, and avoid them."

The St. Matthew Walther League.

Ford FORD SAFETY.

Safety, comfort, reliability, economy, speed, acceleration, beauty—these are the features that make the new Ford such good value. Of all these is none more important than SAFETY.

The safety of the new Ford comes not only from its efficient brakes, but from many other factors. Among these are ease of steering and control, the Triplex shatterproof glass windshield, and the sturdy, balanced construction of the car.

We can make immediate deliveries on all models.

LOCAL NEWS.

Owing to the condition of local ice on Sunday, a game of hockey was out of the question.

Enders & Baron have got in another shipment of New Ford cars.

R. C. services will be held in the Town Hall on Sunday next at 11.30 a.m.

The Lucky Hog Raisers

Our prosperous farmers had a field day at the local hog market on Thursday last. In all, hogs well up to 500 in number were brought in, and for these almost the high price of the season was paid. Checks to farmers ranging from \$265 to over \$500 were the order of the day, and broad smiles adorned the faces of the hog-raisers.

One of the record breakers of the day was Mr O. W. Barth of Rosenthal district. "Cort" brought in 25 hogs to Meredith Brothers and shortly after cashed a check for these at the local bank for the snug sum of 523 real dollars.

The Sox of '72.

Squire Esten Williams, the kindly P. M. who operates in Stony every Tuesday, is after new honors. Passing thru Edmonton last week, he called at the Macdonald, to pay his respects to Lady Eaton, introducing himself as probably the oldest living customer of the lady's store, as he remembers having purchased a pair of sox at her store way back in the year 1872. Acourse, the sox are worn out by now, but the memory of the purchase still lingers.

For the benefit of our many readers who may never have heard of Eaton's, we might state that this is reputed to be a large M O house in Toronto, with a branch in the Maritime provinces.

Wide-bunk Sleighs

A petition for the use of wider sleighs is at present being circulated in a number of farming districts in the province, the argument in favor of their use being that by this means the roads would be kept open for grain hauling by motor trucks, and for the general use of motor vehicles. Now that practically every farmer owns a car or truck, this should meet with hearty endorsement, particularly by those residing in this and nearby districts, after the experience the farmers have had this winter of the inconvenience of snow blocked roads.

There are always times when a sleigh must be used, and if these were equipped with wide bunks, keeping the roads open and in fit shape for motor traffic would be greatly simplified.

Radio Broadcasting In Canada

The Canadian Government recently appointed a Royal Commission to study and make report on the whole subject of radio broadcasting in Canada. That Commission, headed by Sir John Aird, is at present in Europe studying the methods employed in Great Britain and some of the continental countries. It proposes to also study the methods followed in the United States, and, later, will hold public sittings throughout Canada with a view to obtaining the opinions of Canadian citizens.

The importance of this Commission's work can hardly be overstated. Radio has, in a few short years, come to occupy a vital position in the lives of the people, while the future possibilities of this newest form of entertainment, and its importance as a means of publicity, are such that the national interests demand that a well defined policy in the interests of all concerned, but more particularly in the interests of the Dominion itself, be developed with the least possible delay.

The question that this study arises in the minds of patriotic Canadians is whether or not the radio in Canada is to be dominated by wealthy and powerful private interests in the United States, just as the moving picture business has been, or whether Canada will itself develop an acceptable system of national broadcasting.

It has to be recognized and accepted as a fact that the great United States moving picture corporations control the situation in Canada, if not through actual ownership and management of Canadian moving picture theatres, at least through the making and distribution of the films that are shown in this country. There can be no successful denial of the assertion that because of this control of films it is possible for United States ideas, sentiments, enterprises, modes of living, and general propaganda of all kinds, to be insidiously injected into the lives and thoughts of the Canadian people. In a word, one of the most powerful agencies for the dissemination of ideas throughout Canada is in the hands of private and wealthy corporations in a foreign country.

To a large extent the same situation has developed through the enormous circulation which United States magazines and periodicals of all kinds have secured in Canada. Apart from the effect which the reading matter in these periodicals has upon Canadian thought, the advertising matter constitutes a powerful agency attracting millions of Canadian dollars across the line for the purchase of United States products.

In Great Britain radio broadcasting is under the direction of the Government through the medium of a national broadcasting organization. Owners of receiving sets pay a license fee, and the money thus realized is expended in providing worthwhile programmes. In the United States, on the other hand, broadcasting is in the hands of private interests. Good programmes are nationally broadcasted, but they are paid for through advertising sandwiched in at intervals throughout the programmes. All this material, specially prepared for United States consumption and to meet the requirements and promote the interests of United States business, is carried through the air into hundreds of thousands of Canadian homes every day, in the year.

It is not necessary to be anti-American, or in the slightest degree unfriendly to the United States, to nevertheless realize that this is not a good thing for Canada in a national sense. Our Canadian broadcasting stations are widely scattered over the Dominion. They have not the broadcasting power of the big U.S. stations. Nor have they the resources to finance the same type of high class and expensive programmes offered in the United States. Canadian national advertisers have not the same large market to appeal to, and consequently cannot afford to spend tens of thousands of dollars in radio advertising.

Furthermore, do the Canadian people prefer private control of radio broadcasting, financed on the basis of advertising, to the system which finds favor in Great Britain of national broadcasting financed through the payment of a reasonable annual license fee by owners of receiving sets who are the real beneficiaries of the broadcast?

The influence of radio must be admitted. It already occupies a position along with the newspaper and the moving picture as a medium of information and a source of education and entertainment. It is here, and here to stay, to grow, to develop as perhaps few even now imagine. It will be a power for tremendous good or evil. It is essential that Canada, not neglecting the opportunity it presents, should adopt a wise policy in regard thereto.

The Porcupine gold area in the District of Cochrane, Northern Ontario, occupies first rank among the gold producing areas in Canada.

At the Paris law courts there is an old lady of 80, who has been employed for the last 50 years as shorthand writer, and is still active.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians for 50 years since its invention. One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, pleasantly this premier method acts. Please let it show you—now. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions—any drugstore.

Papered With Postage Stamps

Inn Near Bogner, England, Is Known As Stamp House

Near Bogner, where the King has been removed for his convalescence, there is an inn known as Stamp House. Its walls and ceilings are completely papered with old postage stamps, and festoons of them are looped from one side of a room to the other. The "collection" was started many years ago by a former host of the place, who had a passion for stamps, and papered his first room with them, it is believed as a result of a wager. Under the mellow yearish there must now be hundreds of thousands; and report has it that many in semi-hidden corners are rare and valuable.

BABY NOT GAINING? LOOK TO HIS DIGESTION

Babies can't gain when souring water in a clogged digestive tract is forming gas, making them colicky, constipated and miserable. Just try the method doctors endorse, and millions of mothers know, and see how frequently laid in the east in Canada, according to Dr. W. M. English, medical superintendent of the Ontario Hospital, Brockville, with over 800 patients. On the other hand, telephones, motorcycles and radios have broken down the isolation of the farmer and settler and insanity through loneliness is no longer found in the degree formerly known.

Strain of City Life

The stress of living in the cities is today a more potent factor in causing insanity than the loneliness of the isolated farm and settlement on which emphasis has been so frequently laid in the east in Canada, according to Dr. W. M. English, medical superintendent of the Ontario Hospital, Brockville, with over 800 patients. On the other hand, telephones, motorcycles and radios have broken down the isolation of the farmer and settler and insanity through loneliness is no longer found in the degree formerly known.

CORNS

Relief in 2 Minutes

Just a drop or two of Putnam's Corn Extractor, and the painful corns, blisters and swellings disappear. Removing corns with "PUTNAM'S" is so easy, so sure, so painless—thousands of women recommend it and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store.

Heavy Oil Production

Growing Importance Of Alberta's Oil and Gas Fields

The steadily growing importance of Alberta's oil and gas fields is shown in recently published figures. The production of Alberta wells for 1928, is placed at 489,531 barrels as compared with 321,154 barrels in 1927. Of the 1928 production the Turner Valley field, in Southern Alberta, contributed 410,523 barrels of naphtha, and 70,734 barrels of crude oil, the remaining 8,374 barrels coming from the Wainwright field. The total production of natural gas for the province in 1928 is placed at 14,108,959 million cubic feet, as compared with 12,933,801 million cubic feet in the previous year.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Exterminator, an excellent remedy.

Where Nobody Is Young

Nobody is young in the little village of Bursledon, Hampshire. The inhabitants boast that their average age, in proportion to the population, is the highest in the country. There are twenty-seven old folk whose years total 2,115—an average of seventy-eight each. Once Bursledon was a thriving community, but now strawberry growing is the only industry. All the young people have left for more fruitful fields.

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Remover.

Italy has forbidden the exhibition in any part of the kingdom of films depicting war episodes.

Minard's Liniment for the Grippe and Flu.

W. N. U. 1775

Just Right for This Weather

High in calories and warming carbohydrates—No fuss or bother—just warm in oven and serve with hot milk

Made by The Canadian Shredded Wheat Company, Ltd.

The Value Of Birds

Only Protection Country Has Against Insect Enemies

It is estimated that 10,000 caterpillars could destroy every blade of grass on one acre of cultivated land. An insect-infested tree may contain 12,000,000 aphides. The bird population of the country has been estimated at from 700 to 1,000 per square mile, and these birds, few enough in number, are our best protection against the insect enemies which they were intended to destroy. The man who kills these insectivorous birds is helping to destroy his own country.

Internally and Externally It Is Good—The crowning property of Dr. Thomas' Electric Oil is that it can be used internally for many complaints as well as externally. For sore throat, croup, whooping cough, pains in the chest, colic and many kindred ailments it has qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

There are 209 rooms in Buckingham Palace.

Minard's Liniment prevents Flu.

Fishing With Power Electricity has voided the use of fishing nets in many parts of Germany. Two copper cables, placed one on top and one below the water, are charged with electricity. Fish in the vicinity are electrocuted and come to the surface where they are gathered by these modern fishermen.

There are places in India where there are about 600 inches of rain in some years.

Swing Of High Buildings

The Eiffel Tower (984 feet) swings as much as three feet in a heavy gale; but the Woolworth Building (792 feet) and other tall sky-scrapers do not move more than one or half inches in high winds.

STORMY WEATHER

HARD ON BABY

The stormy, blustery weather which Canadians experience during February and March is extremely hard on babies and young children. Conditions make it necessary for the mother to keep them confined to the house, whose rooms may be overheated or badly ventilated. The little ones catch cold and their whole system becomes racked. To guard against this a box of Baby's Own Tablets should be kept in the home and an occasional dose given the baby to keep him fit, or if a cold suddenly grips him to restore him to health again and keep him in good condition till the brighter, warmer days come along again.

Baby's Own Tablets are just what the mother needs for her little ones. They are a mild but thorough laxative which regulate the bowels, sweeten the stomach; break up colds and simple fevers; banish constipation and indigestion and make the cutting of teeth easy. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The family album is coming back. It is reported, but its companion, the gas jet that could be turned down low, has departed forever.

Use Minard's Liniment For the Flu.

Near Cardiff, Wales, road repairers have placed a sign reading: "A car on the road is worth two in the ditch."

Demand

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer, many people are misled by imitations. The Tablets will be stamped with their "Bayer Cross" trademark.

German Aerial Expedition Will Again Attempt Conquest Of the Arctic This Spring

The conquest of the Arctic will again be attempted this spring. Plans for a circuit of the Arctic regions by the German airship LZ-127 have been revealed by Capt. W. Bruns, a German member of the "Aero Arctic," an international scientific organization, who visited officials of the Interior Department seeking their co-operation.

The expedition will be undertaken within the next few months, when the sun in the far north will shine 24 hours a day and the expansion of the gas in the airship will be obtained.

The airship is being lent by the German government, while the Russian government, by erecting a mooring mast at Leningrad, is giving assistance.

An effort will be made to map certain regions in the north. Observations will be made of sea depths and weather conditions.

The "Aero Arctic" foresees the possibility of regular air routes being established between points in the Arctic circle. Another suggested is Yokohama and Vancouver, by way of the Aleutian Islands.

The airship will start from Leningrad, thence to Kohn, on the Murmansk coast, to Franz Joseph Land, across the Canadian sector to Nome, Alaska, where it will be re-provisioned, thence to Wrangell Island finally over the Polar basin.

Officials of the Interior Department are considering the possibility of sending a Canadian scientist on the expedition.

January Immigration Figures

Return Movement To Canada From United States Is Noted

Immigration to Canada during January amounted to 4,164, an increase of 13 per cent. over January a year ago. British immigration for the month increased from 771 to 1,123, immigration from the United States increased from 1,223 to 1,573, immigration from other countries decreased from 1,698 to 1,458.

The return movement to the Dominion of Canadians who had gone to the United States intending to live there and who came back declaring their intention of remaining permanently in Canada, amounted during January to 1,767. These are not included in the immigration returns.

Fox Ranching Problems

Fox raisers and particularly beginners would do well to secure from the Publications Branch of the Department of Agriculture, at Ottawa, a copy of the first report of the Experimental Fox Ranch that has been operated in Prince Edward Island during the past three years. The ranch as described in the report is a model that might safely be followed. Problems of exercising, feeding, treatment for parasites and health are dealt with in a helpful way.

At the next World's Foultry Congress, to be held at the Crystal Palace, London, England, in July, 1930, it is anticipated that Canada will exhibit about 1,000 live birds. In addition the Dominion will have an educational exhibit.

Making a fool of a man is one job woman can beat nature at.

"Eugene, shall we buy a wireless set with a loud speaker?"
"Are you mad? Haven't your mother with us?"—Mousique, Charleroi.

W. N. U. 1776

Money Needed For Montreal Harbor

Estimated That New Line May Cost \$10,000,000

A bill to authorize a loan of \$10,000,000 to the harbor commissioners of Montreal for extension of harbor facilities, received first reading in the House of Commons, Hon. P. J. A. Cardin, minister of marine and fisheries, explained the money was not a gift, but was a loan.

Hon. R. B. Bennett, Conservative leader, drew attention to the possibility of a continuation of business at Montreal on account of the construction of the Hudson Bay railway. The proposed extension of the line to Winnipeg indicated that some of the business would heretofore go in that direction. Mr. Bennett stated that further discussion would be had on second reading.

Dashingly New
Smart side-closing coat dress with fluttering plaits across front of skirt that accent youth of wearer. It attracts snugness through the hips through long-waisted bodice that serves as a hipbooster. The dart-detailed sleeves, forming tab extensions, button-trimmed, are a new style note. The one-piece collar is especially becoming. For immediate all-around wear, it is very smart made of printed rayon velvet, illustrated with collar and belt of fall silk. Style No. 350 is designed in sizes 16, 18, 20 years, 36, 38, 40, and 42 inches bust. Feather-weight twed, cashmere, wool jersey, silk crepe, wool crepe and crepe satin are also suitable. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.
We suggest that when you send are also suitable. Pattern price 25 additional for a copy of our Fashion Magazine, showing all the most attractive Paris styles, embroidery, etc.

Cash Bounties For Farmers

Large Sums To Be Distributed By Saskatchewan Wheat Pool Elevators, Ltd.

Cheques to the total amount of \$1,430,791 were recently distributed to members of the Saskatchewan Wheat Pool Elevators, Ltd., all of whom are farmers. These cheques represented the surplus earnings of the Saskatchewan Wheat Pool Elevator system for the crop year 1927-28. At the annual meeting of Saskatchewan Wheat Pool delegates held in Regina last November, it was decided that these be distributed to the members in cash. The payment is being made on the basis of 15 cents per bushel for grain delivered through Pool country elevators and one cent per bushel for grain delivered to Pool terminals over the platform.

This is the third payment in cash covering the excess charges refund which has been made to Pool members. The amount of the surplus earnings of Saskatchewan Wheat Pool Elevators Limited during 1925-26 was returned to growers in February, 1927, and amounted to \$476,000. This figure jumped to \$1,572,000 for 1926-27, and for 1927-28 to \$1,430,791.90, the amount recently distributed.

School Attendance

2,391,720 Students Are Enrolled In Educational Institutions Of Canada

The number of students enrolled in the educational institutions of Canada was, according to the latest survey, 2,391,720. These included 2,022,729 in ordinary publicly controlled day schools, 102,668 in technical and evening schools, most of them under public control; 71,468 in private or independent schools; 42,546 in universities and colleges; 3,380 in preparatory courses, or schools affiliated to universities and colleges, in addition to those in private schools. The remainder were in business colleges, normal schools and other scholastic institutions.

The educational standing of the enrolment was 1,932,903 in elementary grades, and 300,140 in secondary or higher grades. These do not include the greater part of night school pupils.

The expenditure on public education for the year 1926-27 is given as \$126,564,375.

Cable Used During War

The post office cable from Peterhead to Russia, which was of great service during the war, has been dismantled. At one time a staff of forty-five was employed in handling messages of the Peterhead end of the cable, but this number gradually dwindled as the service fell into disuse.

The cost of the World War has been fixed by a League of Nations committee at \$362,500,000,000 (£72,500,000,000).

Close Kinship Between Life Of Plants and Animals Is Borne Out By Interesting Experiments

Air Mail For the West

Understood That Post Office Department Will Resume Winnipeg-Calgary Service

While there is good reason to believe that the cabinet greatly reduced the amount of money sought by the post office department for the extension of air mail services in the Dominion, it is understood that it is the intention of the department to proceed with the Winnipeg-Calgary service as soon as the estimates are approved by parliament.

The total amount of the increase sought by the department for air mail services is said to have exceeded \$1,000,000 and this was reduced by the sub-committee of the cabinet which reviews the estimates before their presentation to parliament to \$800,000. This reduction will compel the post office officials to exercise the greatest care in preparing their plans and in negotiating air mail contracts with private airway companies.

The cost of the Winnipeg-Calgary service was estimated at about \$450,000 and \$500,000, but the department is committed to other services and as it now stands not more than \$400,000 of this amount will be available for this service across the prairies. Notwithstanding this unfavorable situation, however, the officials will proceed with plans and make every effort to arrange the matter that a service will be begun, probably next autumn.

Sea Power Is Essential

Great Britain Could Not Definitely Renounce Its Use

Unquestionably Great Britain, to reach friendly accord with the United States, would be prepared to go a long way in renouncing the use of naval power under certain conditions. It is absurd, however, to suggest, as the United States senate does officially suggest, that Great Britain and other maritime powers must renounce the use of sea power under any and all possible conditions. It is no reflection on the good faith of the United States to say that in time of war not even the American navy would be useful in accordance with the terms of any such treaty.

John Decided It

The wife of a famous English Bishop—whom we shall call John Smith—was recently very ill, and required a serious operation. As she recovered from the anesthetic, she was heard to murmur: "Am I in Heaven? Am I in Heaven? No, there's John."

DOG SLED DERBY

gentlemen drivers who race their own dogs for the love of the sport has given the event a much wider appeal. Famous dog mushers from the north with mainamutes and huskies, will vie for honors with men whose dogs are bred for show points. The race goes to those with the greatest stamina. Run over a forty-mile course for each of three days, the derby is an endurance test for man and beast. And no whips are used. Arthur Beaulieu is seen above with one of the husky types. The other picture shows practically all that a musher sees during the race.

Two "gentlemen drivers" are now entered for the Eastern International Dog Sled Derby. There was very little if any of commercialism connected heretofore, but the entry of the

That remarkable native Indian scientist, Sir Jagadis Chandra Bose, former director of the Bose Research Institute, Calcutta, is an eloquent and arresting supporter of the close kinship between the life histories of plants and animals and their reactions to external stimuli. He has mustered vast amount of experimental data in defence of his theory and these have recently been reinforced by a series of interesting experiments conducted by the Boyce Thompson Institute of the United States into the reaction of vegetables to the influence of artificial light. The results indicate that vegetables are not stiffer, but possess distinct individualities of their own, indeed responding with marked differences that are not very far removed from human responses under corresponding treatment.

Take the radish as an example. No one, probably, had ever suspected the radish of any great yearning after the thrills and excitement of night life. It has always seemed a sort of stodgy vegetable, despite its pungent flavor and its preference for red as a color. But the Institute reports that when the radish had its normal day extended by the concentration upon it of light designed to duplicate as far as possible the light of the sun, it perked up in surprising fashion. Indeed, it displayed a readiness to endure the longer hours that would have done credit to regular cabinet patrons.

Even more surprising, however, was the action of the lettuce, that which no vegetable we know could wear an external aspect more conventionally respectable. Though a point arrived where the radish showed signs of getting tired, and of wishing that somebody would put out the light and let it go to bed, not so the lettuce. It, apparently, was prepared to stay up all night. After a straight twenty-four hours of light it was still fresh. This just goes to show that you never can tell. That may be a somewhat broad-brained conclusion, but it is further borne out by the response made by the celery and carrot tomato. Here is a vegetable concerning whose sedateness and respectability not even the most suspicious observer has entertained question, even if ripe tomatoes have on occasions been involved in riotous happenings. But if the Institute's reports are correct, we have done it an injustice in suspecting it. After an extra hour under the stimulus of the bright lights the tomato showed signs of extreme nervousness. It was taken to bed half hour and it began to wilt. In kindness the lights had to be extinguished before a second hour had elapsed.

The tomato evidently knew when it had had enough. Let the radish and the lettuce turn night into day if they like, but none of this night stuff for the tomato. It prefers regular hours. Early to bed and early to rise is its motto. It sets an example of the simple, quiet and fruitful life to its neighbors of the vegetable garden.

A British scientist predicts that in time to come men will be born toothless. He thought, in his ignorance, that they usually were born that way.

No doubt there are lingo lexicographers who know the exact shades of differences between booby, hokum, hah, baloney, applesauce and bananas oil.

"I am a commercial traveller in insect powder."
"That is very nice, but here we crush them between our thumb." —

SUNDAY SCHOOL LESSON MARCH 10 BAPTISM AND THE LORD'S SUPPER

Golden Text: "This do in remembrance of Me."—1 Corinthians 11:24.
Lesson: Matthew 28:17-20; 26:26-28; Acts 2:42; Romans 6:1-14; 1 Corinthians 11:23-29.
Devotional Reading: Revelation 7:9-17.

Explanations and Comments

Christ's Commission To Baptize All the Nations, Matthew 28:19, 20.—Upon a mountain in Galilee after the resurrection of Jesus, the eleven disciples saw Him and worshiped Him. He told them of His universal dominion ("All authority hath been given me in heaven and on earth"), and gave them His world-wide commission to make His power a reality: "Go ye therefore, and make disciples of all nations."

"Remember, fellow Christians, how wide was the horizon of Jesus. Our horizon widens from cradle to home, school, city, country, and, with some, perhaps, to the last man. But to Jesus the outside rim of the earth was the first horizon thither He saw, and the last. When He was born, good tidings came unto whom—the Jews? 'Unto all people,' among all nations; 'throughout—the whole world'; 'to every creature'; 'to the members of all parts of the earth'; are Christ's words. 'Go ye into all the world' is His limitless command, his boundless expectation."—Maltbie D. Babcock.

Jesus directed His followers to baptize disciples into the name of the Father, and of the Son, and of the Holy Spirit; teaching them to observe all things whatsoever He commanded them. "Baptism is (1) into the name of the Father, as our Creator, Preserver, and Benefactor, who rules us, as free agents, by His love. It is (2) into the name of the Son, baptism we accept, as Peter did. 'Thou art the Christ, the Son of the living God,' and consent, as Thomas did, 'My Lord, and my God.' We give ourselves to be taught, and saved, and ruled, by Christ. It is (3) into the name of the Holy Spirit. We give ourselves to His guidance, as our Sanctifier, Teacher, Guide and Comforter."

And then Jesus gave His wonderful words of comfort and encouragement and cheer: "Lo, I am with you always" (not will be, but am), "even unto the end of the world!"

"Our responsibility for missionary work is patent in the command of Christ; our power for that work is perfect in this great promise of Christ."

What "It" Is

Perhaps this can be applied generally to all husbands, but a woman in the Wilkesden police court recently defined the word "it" as used by a famous woman novelist. The clerk pointed to a man in court and said "Is that your husband?" She replied, "Yes, sir, that's it."

Nobody ever has to take a tonic to create an appetite for flattery.

The Good Old Days

Maybe two can live cheaper than one, after all. Mr. and Mrs. Tom Lovelock, of Lynnham, England, in celebrating their golden wedding anniversary, revealed that they were married when Lovelock was making but \$2.50 a week and that shortly after his salary was reduced to \$2.25.

LIFE WAS A BURDEN

Health Restored Through the Use Of Dr. Williams' Pink Pills

"I am writing to express my gratitude for what Dr. Williams' Pink Pills have done for me," says Mrs. W. J. Dowling, Tottenham, Ont., and further says: "I was so badly run down that I felt that life was a burden. The doctor said my trouble was due to poor blood, but his medicine did not help me. My face was sallow, my lips bloodless and at the least exertion my heart would palpitate so violently that I would have to lie down. My feet and legs would swell and cramp, and all my friends thought I was in a decline. In this condition I was urged by a friend to try Dr. Williams' Pink Pills. I got three boxes, and to my delight, by the time I had used them I began to feel better. I got a further supply and kept on taking them. Daily I felt myself growing stronger. The color returned to my cheeks and lips and I felt a new interest in life. To sum up I can now say that I am feeling fine for which I give the credit to Dr. Williams' Pink Pills, which I strongly recommend to all weak girls and women."

A useful book, "Building Up the Blood," will be sent free on request by the Dr. Williams' Medicine Co., Brockville, Ont.

Dr. Williams' Pink Pills are sold by all druggists or will be mailed by mail, post paid, on receipt of price, 50¢. Try them today.

Mother (giving afternoon tea instructions): "Now, remember, Willie, when these cakes are handed round you must take a plain bun from the bottom of the dish."

Willie (disgustedly): "Just my luck! The bargain basement again!"

Asthma Victims.

The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the extinction of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

Scientist says life evolved in a series of jumps, and a cursory inspection of our thoroughfares convinces us it is still evolving that way.

When a mother detects from the writhings and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their high vitality. No worms can long exist where these Powders are used.

A philosopher is a man who never feels badly after he has made an ass of himself.

A Power Of Its Own. — Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

There are 10,000,000 accidents in the United States each year.

Minard's Liniment for Coughs and Colds.

Minard's Liniment

Is a Great Preventative, being one of the oldest remedies used. Minard's Liniment has relieved thousands of cases of Grippe, Bronchitis, Sore Throat, Asthma and similar diseases. It is an Enemy to Germs. Thousands of bottles being used every day. For sale by all druggists and general dealers.

Minard's Liniment Co., Ltd., Yarmouth, N.S.

In the 49 years since its organization, the Bowery Mission, New York, has distributed 172,000 free meals and 5,000 articles of clothing.

You Can't Dye a Dress with Promises!

You can't dye a dress—no matter how careful you may be—without real color. That's the idea behind Diamond Dyes. They are made to give you real service. They contain far more than three to five times more aniline than other dyes on the market.

Next time you want to dye, try Diamond Dyes. See how easy it is to use them. Then compare results. Note the absence of that re-dyed look; of streaking, or spotting. See how soft, bright, new-looking the colors are. Then observe how they keep their brilliance through wear and washing. If you don't agree Diamond Dyes are better dyes, your dealer will refund your money.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool.

PREMIER KING ON THE QUESTION OF RESOURCES

Ottawa.—The whole vexed question of the return of the natural resources to the western provinces was ventilated in the House of Commons recently. In a lengthy speech, Premier Mackenzie King reviewed the history of the natural resources problem and outlined the position today.

In brief, the situation at present, as dealt with by the prime minister, is as follows:

The province of Alberta is now considering an offer from the Dominion government of the return of its natural resources coupled with the payment to it of a subsidy amounting to \$562,000 annually for all time.

Saskatchewan has refused an offer of the transfer of its lands "without any strings attached," and the payment of the present subsidy.

Agreement has been reached to transfer to British Columbia lands in the Peace River block and the railway belt. At present officers of the departments concerned are working on the necessary accounting having to do with the transfer.

With respect to Manitoba, a commission is now engaged on matters concerned with the handling over to that province of its lawful resources.

The Prime Minister made only passing reference to the Seven Sisters Falls lease to the Winnipeg Electric Company. The leader of the opposition had been critical of the haste with which Mr. Bennett claimed prompted the government in its return of the natural resources to Manitoba.

Earlier in the session, the Premier continued, the same gentleman had condemned the government in its delay in dealing with this matter. Mr. King remarked, amid laughter, that "the whole reason of the haste was to avoid delay."

For Educational Purposes

Brandon, Man.—That the Manitoba government set aside one-eighth of all the natural resources that came under provincial control for educational purposes will be urged as a result of a resolution passed unanimously by the annual convention of the Manitoba School Trustees Association.

Grant Hall Received By Pope

Rome.—Pope Pius granted an audience to Grant Hall, vice-president of the Canadian Pacific Railway, who is visiting in Rome.

THE EASY WAY

Thousands need cod-liver oil to increase vitality and build up resistance.

Scott's Emulsion

is the easy and pleasant way to exact the most out of cod-liver oil to reinforce your body with strength to build resistance.

Britain Will Adhere To Locarno Treaty

Has Not Considered Any Other Agreement With Foreign Powers

London, Eng.—Godfrey Lockers-Lampson, under secretary of state for foreign affairs, assured the House of Commons that Great Britain would enter into no military agreement with other powers that would in any way be contrary to her obligations to Germany under the Locarno security pact.

He made this statement in answering one of the many questions propounded as a result of recent publication in Holland, of an alleged military pact between France and Belgium, the particular question being: "Can assurance be given that no military discussion will be held with France or Belgium which would not include Germany, in order strictly to maintain British obligations under the Locarno pact?"

The reply was: "The member may be quite sure that we will do nothing contrary to the Locarno pact." Volleys of questions regarding the alleged Franco-Belgian military agreement, and reports that Great Britain had some connection with it, were fired at the government in the House. Godfrey Lockers-Lampson made categorical denial of the rumors, saying:

"Apart from the treaty of Locarno no agreement involving a military commitment has been concluded since the war between this government and Belgium, nor is any military agreement or understanding in existence between the British general staff and that of any foreign country."

Famous Flyer In Accident

Col. Lindberg and His Fiancee, Miss Morrow, Meet With Mishap

Medico City.—Colonel Charles A. Lindberg's flying skill saved the life of his fiancée, Miss Anne Morrow, when their plane capsized on landing at Valbetta Field.

The colonel is confined to bed in the American embassy residence with what embassy attaché described as a "slightly dislocated shoulder blade." Miss Morrow was badly frightened, but not injured.

Colonel Lindberg was returning from an air trip of several hours with the girl whom he will marry. The aeroplane, a four-passenger monoplane named the "City of Wichita," had been crippled by the loss of a landing wheel and the colonel faced a situation of unusual danger with the chances favoring a crash.

He brought the plane safely to earth and taxied for thirty yards on one wheel with the axle of the missing wheel dragging on the ground. Suddenly the plane pitched forward and turned completely over.

Later, Colonel Lindberg declared "this is nothing at all. It is not an accident; it is simply a mishap."

Purchase New Plane

Universal Airways, Limited, Order Another Machine For Use In Saskatchewan

Regina.—Speeding up their plans with the opening up of the weather, officials of the Universal Airways, Ltd., ordered for immediate delivery of a new cabin airplane for use in their proposed transport and express service in Saskatchewan.

The new machine will be capable of carrying four passengers or 350 pounds of freight. It will have a cruising radius of 550 miles and will be able to travel at a speed of 135 miles per hour when loaded. It will have a top speed of 150 miles an hour.

Company officials announced that it is proposed to order another machine within the next six or eight weeks. This machine would be the third of this kind purchased.

No Divorce Court For Ontario

Ottawa.—Defeat in the House of Commons of the bill to establish divorce courts in Ontario saw party lines badly broken on the division. Introduced as a private member's measure by J. S. Woodsword (Liber. Winnipeg North Centre), the bill was defeated by 99 to 68. Premier Mackenzie King and Hon. Guthrie, acting Conservative leader, were not present for the division.

RECEIVES NEW APPOINTMENT

J. M. McKay, newly appointed General Agricultural Agent, Western Lines, Canadian Pacific Railway.

Application Is Dropped

Canadian Northeastern Not Building Railway Into Peace River Country

Victoria, B.C.—The Canadian Northeastern railway dropped its application for right to build into the Peace River country and will not conflict with any plans which may be made in that direction for the Pacific Great Eastern, the provincially-owned line. With its part of its original application dropped, approval of the private bills committee of the legislature was given to the company's request for right to build a line for 285 miles from Stewart, a tidewater port in northern British Columbia, to Port Graham, in the central northern part of the province.

The Northeastern also dropped its request for right to build a branch up the Finlay river from Port Graham for 100 miles, pending decision of the future of the government line.

Will Search For Italia Crew

Rome.—Italians who believe that it is still possible to find some trace of and perhaps even to rescue the six men who drifted away with the balloon part of the Noble dirigible Italia are attempting to raise funds for a new Arctic expedition next summer. They would lease an ice-breaker and expect the loan of a seaplane from the Italian Government.

Piloted Two Zeppelins

Berlin.—Walter Scherz, a veteran helmsman of the air who stood at the wheel of two Zeppelins when they crossed the Atlantic to the United States, died here from balloon gas poisoning.

Radio Operator Has Travel Record

Trained operators in charge of radio-equipped cars in daily service on the Canadian National Railways travelled a total of 6,134,738 miles during 1928, and the most travelled operator during the twelve months was R. K. Anderson, who may well lay claim to a world's record for his performance. Mr. Anderson covered 153,050 miles on duty, a distance which represents the circumnavigation of the globe several times. This operator is usually on duty on board the International Limited, the fast daily train operating between Montreal and Chicago. Trains on eight runs on the National System carry radio equipped cars, the Canadian National Railways being the first in the world to offer radio as part of the service provided for passengers.

The illustration shows Mr. Anderson seated at the receiving apparatus in a library compartment, observation car.

Employment Situation Shows Improvement

Better in Canada Than in Any February on Record

Ottawa.—Employment in Canada on February 1, was in better condition than on that date in any year on record, according to the Dominion Bureau of Statistics. Reports from 6,391 firms showed a total of 633,943 employees as compared with 621,404 on January 1.

The contraction on the prairie provinces was less than on February 1, 1928. The situation continued better than on the same date in any year on record. Manufacturing and logging advanced, while there was a shrinkage in trade, construction, transportation and communications.

The situation was also better in British Columbia as compared with the same date last year. There was substantial improvement in mining but logging, manufacturing and transportation were slacker.

Dynamite Plot Failed

Explosive Is Found In Office Of Premier Taschereau, Of Quebec

Quebec.—Quebeced as to a rumor that an attempt had been made to blow up the Premier Taschereau's office when he went to his office in the parliament buildings at 10:45 p.m. he found a stick of dynamite on the floor with a half-burned fuse attached. The fuse had been extinguished by some agency after burning a few inches.

Premier Taschereau had been attending a committee meeting in the parliament buildings and at its conclusion returned to his office.

Switching on the lights at once he noted the dynamite lying on the floor.

Premier Taschereau had the explosive removed by police and it was discovered to be dynamite of the most powerful type.

Pioneer Lake Captain Dead

John Cousens Saw First Steamship To Sall Lake Superior

Port Arthur, Ont.—Marine Captain John Cousens is dead here aged 82 years. At St. Paul, Minn. he saw the passing of the Rescue, the first steamship to sail Lake Superior. He sailed on the Chicora, famous blockade runner.

In 1871 before the advent of the Canadian Pacific Railway, he carried mail over the ice route between Duluth and Port Arthur. He served with the Queen's Own in the Fenian Raid and was one of the guard of honor at the reading of the proclamation of Confederation in Toronto, in 1867. Later he served with Wolseley in the Northwest.

TESTIMONY GIVEN ON MANITOBA POWER DEAL

Winnipeg.—Negotiations between the Winnipeg Electric Company and the Bracken Government regarding the Seven Sisters Power site were not affected by any advance knowledge of the Hogg report conveyed to the private firm, Edward Anderson, K.C., president, stated recently. Before the Royal Commission investigating charges made by Colonel F. G. Taylor against the Bracken government, Mr. Anderson testified that the agreement was made after "real, genuine, honest, bona-fide negotiations."

The Winnipeg Electric Company would not have made the bargain as it resulted had they known the nature of the Hogg report, Mr. Anderson stated, but would have "held out" for better arrangements. The report submitted by Dr. T. H. Hogg, consulting engineer for the Ontario Hydro Commission, has been regarded as the influence leading the Bracken government toward leasing the Seven Sisters site to the Winnipeg Electric Company.

That negotiations with the Bracken government almost "blew up" owing to the fact that A. W. McLimont, at that time president of the Winnipeg Electric Company, considered the government was "driving too hard a bargain," was stated by Mr. Anderson.

Counsel appearing before the Royal Commission have intended no imputations whatever against the character, integrity or sincerity of Dr. T. H. Hogg, who submitted an expert report to the Bracken government, it was announced by Chief Justice MacDonald, after an examination of documents.

A telegram had been received from Dr. Hogg referring to "misstatements" reflecting on his integrity and made at yesterday's session of the commission. It was not stated whether he would be called to appear, though his telegram had mentioned that he wished to be heard as soon as possible.

Forced To Swallow Knife

Toronto Thugs Use Inhuman Method On Victim

Toronto.—Angered at the small amount of money they found on his person, two thugs forced Angelo Augustus, 25, Toronto, to swallow a jack knife, more than four inches in length.

Angelo is now in hospital where doctors hope to save his life.

According to the victim one of his assailants attempted to make him swallow the knife with the blade open but his accomplices interfered and the blade was closed.

Women Refused Franchise

Quebec.—By a vote of 50 to 16, the Quebec legislative assembly killed the bill introduced by Willis Tremblay, Conservative M.L.A., for Maisonneuve, to give the women of Quebec the vote in provincial elections. This is a gain of five votes for the cause of suffrage as compared with last year.

"PINKHAM'S COMPOUND IS WONDERFUL"

Read This Letter from a Grateful Woman

Vanessa, Ont.—"I think Lydia E. Pinkham's Vegetable Compound is wonderful. I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each time I was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."—MRS. MILTON McMILLAN, Vanessa, Ontario.

West Has Priceless Heritage

Saskatchewan might be termed
the epitome of Canada's Great
West. No other Province has a more
interesting population, for the fabric
out of which that population has
been woven contains threads of
so many racial cultures. Of the
eight hundred and seven thousand
souls recorded in the census of 1926,
three-fourths are of British descent
with English and Scots blood pre-
dominating. Over half a million
were born in Canada, and of these
a small but notable sprinkling are
of French-Canadian descent. Nine-
ty-eight thousand were born in the
British Isles. Continental Europe
has added twenty-two racial strains
of which the larger groups may be
summarized as Slavonic (55,000),
Scandinavian (20,000), Teutonic
(20,000) and Romance (14,000). The
aboriginal Indian population num-
bers about 13,000. Each of these
racial groups can contribute some-
thing to Canadian art and music,
for each has its traditions of handi-
craft and folk-song, traditions which

represent an inherent
love for beautiful things
and a love of melody.
Folk-song is intimately
linked up with handi-
craft, for it is to the
accompaniment of folk-
song that the spinning
wheel turns and the
beautiful homespun fa-
brics are woven. These
fabrics can never be
duplicated by the fac-
tory-made article, and
the efforts of the Cana-
dian Handicrafts Guild
to find and retain a
market for the craft-
work which can be done
during the winter
months on the farms of
Western Canada is
therefore well worthy of
support. This Guild is
preparing a handicraft
exhibit in connection
with the Folk-song and
Folk-music Festival
which the Canadian Pacific is
organizing to be held at Regina,
March 20-23rd, as the inauguration
of a Saskatchewan Branch.

The main idea of this Great West
festival is to help Canadians to
realize the priceless heritage which
they possess in the traditional
melodies which have been brought
to this country by immigrants, and
in some cases have been composed
in this country by early settlers. The
field of folk-music is so immense that
only a glimpse of it can be secured
in the four days of this particular
festival, but some of the greatest
artists of the continent will render
interpretations and it promises
indeed, to be a feast of music and
color. Poul Bal, the Danish baritone
will feature in Norse music, Charles
Marchand in the French-Canadian
folk-songs and almost every nation
will be represented in handicraft
as in song. Above is seen a Slovak
weaver who will remove his pipe
and sing to his handiwork.

The Battle of January:

January was a momentous month for wheat producers
the world over. Canadian farmers had delivered nearly
four hundred million bushels of wheat. Argentina and
Australia were commencing the delivery of unusually
large crops. There was an immense visible supply
of wheat. The market commenced to sag. The one opti-
mistic feature in a rather gloomy picture was the Cana-
dian Wheat Pool. Just what the Pool stood for is
told in candid language by George Broomhall, the
British grain authority, in "Milling":

"Prices were put down on the plea that Argentina
must sell more of her new crop, and, in fact, shippers
did put out lower offers, and some Canadian sellers fol-
lowed the downward lead.

"But it soon found that the Canadian Pool re-
fused to offer or sell at the lower prices, and, of course,
the gave Argentina shippers courage to work for a
reaction.

"The action of the Canadian Pool also gave buy-
ers confidence, and they not only found that they needed
wheat, but that they could pay better rates for it.

"As long as Sellers are willing to 'cut' prices, buy-
ers were quite prepared to stand back and let them do
still more 'cutting,' and quite possibly there might have
been a bad slump had not the Canadian Pool taken a
strong stand.

"The Canadian Pool Managers

certainly deserve credit for courageous handling of a
difficult situation, and their action proves that farmer
members of the Pool would not agree to low prices at
this period of the season.

"The lesson of the price movements of wheat in the
past week is that emphasis must be given to the
power of strong holders to maintain prices.

"Past experience showed that a crowd of weak
holders was almost at the mercy of buyers in times of
plenty.

"I think all must now recognise the commanding
position of the Canadian Pool, and the readiness of Ar-
gentine shippers to follow a strong upward lead."

GOERZ, late of Stony Plain, Al-
berta, Deceased.

NOTICE is hereby given that all
persons having claims upon the estate
of the above-named Elisabeth Goerz,
who died on the 23rd day of May,
A. D. 1928, are required to file
with the Solicitor for the Executor
by the 13th day of April, 1929, a
full statement fully verified of their
claims and of any securities held by
them, and that after that date the
Executor will distribute the assets
of the deceased among the parties
entitled thereto, having regard only
to the claims of which notice has
been so filed or which have been
brought to her knowledge.

DATED this 28th day of February,
A. D. 1929.

GEORGE J. BRYAN,
Solicitor for the Executors.

The Domestic Animals Act (Municipalities)

Sale and Redemption of Impounded Animals.

Notice is hereby given under
Section 48 of The Domestic Ani-
mals Act (Municipalities) that 1
Bay Horse, 9 years old, weight
1000 lbs., branded R on right
shoulder, was impounded in the
pound kept by the undersigned,
located on the S.W. Qr. Sec. 11,
Twp. 52, Range 3 W. 5, Chas's
Coleman, Duffield, Alberta, on
the 13th day of February, 1929,
and that the said animal was so
on the 27th day of Feb., 1929, to
Wilfrid Eigen, of Duffield, and
that the said animal may be re-
deemed by the owner or on
his behalf within a period of
thirty days from the publication
of this notice in The Alberta
Gazette, upon payment of all fees
and costs due to the Municipality
and the purchaser of the above-
mentioned animal.

For information apply to the
undersigned.

E. H. PIDGEON,
Sec.-Treas. of the Municipality of
Ings No. 520.

Postoffice, Duffield, ALBERTA.

**"Here's my idea of
a razor—**

one that sharpens its own blades!"

"Why, I remember
when I used to have to
throw away a blade
after a couple of shaves.
Now, I simply take it
and give a few turns on
the strip and it's as
good as ever.

"I can shave in three minutes,
and my face is as smooth and
slick and comfortable as when
the head barber used to go
over it. To clean, I simply
put the blade under the tap
and wipe it off. There's no
taking the razor to pieces and
messing around with parts.
In fact, the whole thing is so
simple and easy, I wish I had
had one long ago."

Razor — Strip — 12 blades — \$5

CHAPTER XV.—Continued

For a moment Connie was silent. "When—when my dreams come true," she responded with an smothered smile.

Then he told her of the city and its ways and the things people did. She listened, not with amazement, but with a contented smile, as though what he told her was confirmation of her dreams. But when he told her of the grand opera, the music, the costumes and the singing, her grey eyes widened with longing, she sighed deeply.

Donald's voice trailed to a drowsy close; his chest rose and fell regularly, his features relaxed. He felt as though he were floating, exquisitely floating, on a sea of dreamy clouds that was bearing him softly away. A delicious languor enthralled him—an enchantment drowsy and dim. He felt himself drifting, drifting—He was asleep.

The willows at the lower end of the meadow were pushed cautiously aside, and Hand's head appeared in the opening. For two days he had lain hidden awaiting an opportunity to waylay Donald. The day after the fight he had boarded the train for the coast, but had slipped from the car at the station below.

His face—unprepossessing at its best—was now a horrible sight. The thick lips were swollen and cracked, the eyes discoloured and puffed, and the broken teeth bared in a snarl as he saw Donald lying by the stream. Every hour since the fight Hand's hatred for Donald had grown blacker. He would show him that he, Ole Hand, deserved his reputation as a fighter. He would hold this crippled man helpless while he showed blows on his unprotected face, make him cry out for mercy on bended knees; perhaps kill him. His hatred grew hotter and deeper as he watched him lying peacefully beside the girl who had been the cause of the fight in which he had been ignominiously whipped.

Connie sat gazing down on the sleeper. A sudden thought seized her bringing a warm flush to her cheeks. Why not? No one could ever know. Would she dare? she glanced timorously about her, then leaned slowly over, her curls falling about her face, and touched her soft lips to Donald's cheek.

A bluejay screamed derisively. Connie came to her feet, her face crimson. Donald stirred, opened his eyes, and painfully raised himself.

INDIGESTION RELIEVED

CARTER'S LIVER PILLS
The "Vegetable Kid" is as laxative in its digestive duties. Often one of these little pills taken after meals or at bedtime will do wonders, especially when you have over-eaten or are troubled with constipation. Remember they are Dr. Carter's formula, young and old can take them. All Druggists 25c and 75c red packages. **CARTER'S LIVER PILLS**

glancing blow on the shoulder that brought from him a howl of pain. Again the Breed's arms closed about his adversary's waist. Mad with the pain in his shoulder, the foreigner drew a long, keen knife, circled warily about the two wrestling men until he found an opening, then plunged the knife to the hilt in the Breed's left side. The stricken man slithered from his opponent's arms and fell a crumpled heap to the ground.

Sick and giddy, Donald stumbled from the bucket, seized the axe and advanced weakly toward Hand. Hand's accomplice, taking one look at the prostrate body, turned and fled terror-stricken to the woods. Hand hesitated for a moment, then followed heavily after.

At this moment, Connie, with clothes torn and hair dishevelled, broke from the woods, and with a cry of pity flung herself to the ground by the Breed's side and placed his head on her lap. The eyes of the wounded man flickered slightly open. He tried to speak, but a strong convulsion shook his frame from head to foot and he writhed in desperate agony.

Connie's face as she lifted it to Donald was drawn with grief. "Get me some water please," she said brokenly.

The dying man's lips moved. Connie leaned closer.

"I—love you," he whispered faintly, "I—saved him—for you."

A ghastly pallor spread over his features and his lips were widely parted in a struggle for breath. Again his lips moved in a fluttering whisper.

"Connie—will you—kiss me?"

As Connie pressed her tear-wet face to his pain-contorted features relaxed in a smile of wonderful peace and his eyes closed.

When Donald returned Connie's head was bowed and she was weeping softly.

"How is he, Connie?" he questioned gently.

"He's dead."

Donald removed his hat and knelt with bowed head.

"He died for me," he choked.

"And for me," she whispered indubitably.

CHAPTER XVI.

Least we tire of monotony. Nature gives us a change of colour for each of the flowering seasons. Flowers of every hue may be found through the different months. Pink for May, red for June, blue and pink for July, and during August royal robes of gold and purple clothe the hills and valleys.

The last week of August brought

to Summit Lake a pagentry of colour that the Coast region is denied owing to the persistent rains that retard the ripening of the leaf. The deciduous trees were already with drawing their life-giving fluid from the leaves to store it in their roots until spring. The willow, vine maple, birch and alder along the creeks and lake-shore held touches of autumnal colouring; while on the hills the yellowed leaves of the cottonwood were brilliant in their setting of sober dark green contrasts.

A gaudy red were the vine maples, but there was a leafy beauty greater than theirs. The flowering dogwood blazed from every nook and cranny. The ripening of the dogwood gives it its leaves a flame that burns with a fierce glow; a glow that further ripening deepens until its crimson flush becomes the liveliest hue of the British Columbia woods.

The freeweed, or willow herb, that in July gives to the open spaces a gorgeous taint of bluey pink, were now losing a flock of seeds to float away like tiny parachutes. Each seed but of dust had a minute germ of life that would build a plant as large as its parent when, dropped by the friendly wind, it reaches a

fertile spot. The stately cottonwood were sending out a life-stuff as tiny as that from the smaller plants. Thistles, cat-tails and asters hurried to join the silken clouds until the air was misty with these germ balloons, drawing their winter's rest. The red alderberry and its magenta neighbour, the thimble berry, with its truculent Scotch cap, gave to the woods a material flame.

A curious timidity had come over the birds; not only were they quiet, but they were no longer to be found in their usual haunts. In some retired spot they were moulting. While the weather was at its best, and food was the most plentiful, they were dressing themselves in a new set of feathers for their long flight to the south. The tops of the tall pines were filled with sweet twitterings, of flutterings out and in, wing trills, quick short flights. A flock of waxwings had gathered for the migration. They would not leave for some time yet, but the change had come. Birds from the north had arrived, crossing south by easy stages, taking plenty of time in their journey—the freest creatures that live, staying or going as they feel inclined.

(To Be Continued.)

To Check "FLU," Grippe

Fights the Germs in the Throat Before They Invade Other Parts of the Body.

EFFECTIVE PREVENTIVE MEASURES EXPLAINED

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerviline. Half a teaspoonful of Nerviline in water makes a most effective gargle. The germ-killing properties of Nerviline quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough, be sure to rub the neck and chest with Nerviline. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminatory organs, and rid the system of disease-breeding wastes. This combination treatment of Nerviline and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 58 inches only. A square yard of WINDOLITE weighs about 15 lbs. and a square yard of glass of ordinary thickness, weighs about 135 to 140 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Stony Plain and District.

IT PAYS TO PAY CASH.
Mr Jac Miller left, Monday for his home at Wembley.
Mr Geo Spike and family have moved to their new home on Strass ave.

Mr Jas. Christie was a business visitor to Edmonton yesterday.

Mr Sam Zippel, who has been visiting with his daughter, Mrs R Hoffman, returns today to Edmonton

Jno. Messenger, Entwistle, was a Monday visitor to Stony.

Mr Paul Werner, immigration agent for C.N.R., is expecting the first instalment of farm help (12 men) to arrive in Stony tomorrow. Send in your order for help early, to avoid being disappointed.

The Service Garage, on Monday, received another shipment of Chevrolet trucks and autos.

Excavation work was commenced Monday on Stony's new ten-thousand-dollar amusement hall. This will be located in the Stony Plain Motors block, and will occupy four lots on Main St. Full details of the plans are not given out, as yet, but it is understood the Precht Syndicate intend making this the best of its kind west of Edmonton.

The farmer's best friend is The Family Herald and Weekly Star, Montreal. It costs only a dollar a year.

Sunday Evening's Sermon.

At the Lutheran service in English last Sunday evening, a Stony Plain, Pastor Osterman delivered, an eloquent discourse from the text—St. Matthew 10, 23: "Whosoever herefore shall confess Me before men, him will I confess before My Father which is in Heaven." The edifice was well filled with worshippers. The announcement was made that the next English service will be held March 17 at 7.30 p.m.

Walther League News.

The regular business meeting of the society was held on Saturday, Feb. 28. Among other things, it was decided to have a sleighing party on March 10, provided the roads are in good condition.

Coming—The W.L. Annual "Billy Disappeared id."

Holborn Happenings.

Great interest is being taken here in the big meeting in the Hall, here, tomorrow evening (March 8) in the interests of the Alberta Wheat Pool. The meeting will be addressed by W M Washburn, R Brown and J P Watson. Large attendance is expected.

A dance will be held in the Hall on Friday, March under the auspices of the U.F. Local.

Mr Jas. Phelan's postponed auction of his stock and machinery will be held tomorrow, at his farm in Holborn.

Mr Scott, livestock dealer, has his truck laid up for several days this week, owing to poor condition of the roads.

Calendar.

MARCH—
8—Pete Sladoff sale.
9—Wheat Pool meeting at Holborn Hall.
9—James Phelan auction sale, at Holborn.
10—Walther League Sleighing Party.
18—Th. Wines sale.
20—Geo. A. Nichol's sale.
23—E. Sites' sale.
29—Good Friday.

United Church Notes.

The Spruce Grove Ladies' Aid have purchased a new pulpit chair. It is expected that some finishing touches will be put on the church.

At Stony Plain, on Sunday last, a very beautiful solo was sung by Miss Esther Peters. The pastor spoke on the text, "Art thou He that should come or look we for another?"

Notices !

E H Pidgeon has taken over the J. I. Case agency for Stony Plain territory and will shortly have a full line of farming implements on display in Stony Plain.

Mr A E Brunelle has been appointed agent for this district for the Singer sewing machine.

Blueberry's Big Event.

The big event of the season at Blueberry takes place tomorrow night (March 8th) in the schoolhouse, sponsored by the Community Club. The first part of the evening's entertainment will be in the form of a concert, and this includes solos, duets, recitations and several 1 act plays. These latter promise to be very interesting to those who attend, as there are in the several casts gentlemen actors whom Ziegfield and Hammerstein have so far been unable to engage, but who are for this occasion, donating their services to the public free gratia. The show starts at 7.30 sharp. Dancing after the concert, with Kotscherofsky's orchestra supplying the music.

Spruce Grove News

Spruce Grove is on the tentative list of points at which the Alberta Wheat Pool will build elevators this season.

Spruce Grove School board held a meeting on Saturday last, with Jac Brox in the chair. The matter of disposing of the old drive shed on the school grounds was under discussion.

Mr Benjamin Simon was in attendance, last week, at the funeral in Edmonton of his mother, Mrs Valerie Simon. Deceased was an old-time resident of this district. Mr C N Gagne was one of the bearers.

The "Duke" has postponed his trip to Scotland until after Easter.

Mr McLeod and his outfit had a busy time the other day—shipping a car of hogs, a car of hay and a car of oats from breakfast to dark.

The road to Stony is in fairly good shape, following the efforts of the trail-busting outfit from Stony.

Hereand There

(250)
In 1913 the Canadian Pacific Railway's tax bill was \$1,382,000; in 1927 it was \$7,358,000, an increase of 432 per cent, working out at \$20.160 per day, \$740 per hour, or \$14 per minute.

Dean Laird of Macdonald College St. Anne de Bellevue has, during the past five years, conducted over fifteen hundred people through the west. This year he is conducting a sixth all-expense tour, with special train accommodation.

The Jersey cattle sale of D. H. Bull & Son in Toronto the other day resulted in the highest average prices for the breed yet recorded in the Dominion. Seventy-six normals averaged \$556. This included many yearling heifers and young bulls. The top animal, Brampton Bay Xenia, sold for \$8,000. This is the third highest price ever paid for a Jersey cow in North America.

Running down a timber wolf with a railway locomotive was the unusual sport tried near North Bay recently when C.P.R. night engine bagged a 90 pound specimen. Engineer M. Lafontais on rounding a curve saw the wolf walking across a short distance ahead, and opening the throttle, succeeded in striking the beast with the pilot steps. Conductor W. G. Watling ran back and finished off the animal with a poker. A bounty is paid on wolf skins by the government as the animals are a menace to game and livestock.

Canada now holds the world record for winter cruises. With one cruise around the world, another to South America and Africa, a cruise to the West Indies this season, the red and white Canadian Pacific flag is seen in nearly every important port in the world. Next season another cruise is to be added, making two to the Mediterranean, and extensive additions will be made to the itinerary of the "Empress of Australia" on her seventh cruise around the world, starting December 2nd.

The interest of the Prince of Wales in Canadian affairs was demonstrated recently when, following his speech at Mansion House, in London, he visited the British Industries Fair, and spent some time in examining the exhibits of the Canadian Pacific Railway. He took great interest in the model train models and commented upon the artistic nature of the round the world cruise working model. Her Majesty the Queen, and Prince George passed along the same way and showed great interest in the displays.

One of the most colourful and interesting events of the winter season in the west is scheduled to take place in Regina on March 29-31 next when the Great West Canadian Folk Song, Folk Dance, and Handicrafts Festival will be held in the Saskatchewan Exhibition Building. Over twenty nationalities will be represented in the musical and dance programs and in the exhibits of handicrafts, and a number of artists from the east will be present. The concert is being arranged by the Canadian Pacific Railway in cooperation with the Conservatory of Music of Regina College.
